

## UCLPartners Transfers of value – updated January 2025

In line with the Association of British HealthTech Industries (ABHI) code of ethical business conduct and Association of the British Pharmaceutical Industry (ABPI) code of practice, from April 2022 onwards, all Health Innovation Networks, including UCLPartners, have agreed to disclose details of joint working agreements with industry, as well as any donations by non-profit making or charitable organisations (together known as ‘transfers of value’) on an annual basis as a minimum.

This covers the time period from September 2023 to January 2025. Please refer to our previous [Transfer of Value](#) document for programmes of work completed prior to this date.

UCLPartners programme	Background and need	Organisations involved	In-kind benefit or value received	Start date	End date	Summary of in-kind benefit or value received
CVD ACTION	CVD ACTION, developed by UCLPartners, will enable GP practices to act on data and optimise treatment in individual patients to prevent heart attacks and strokes.
